

COLLABORATION IN ACTION
LUPC & SUPC CONFERENCE 2021

LUPC & SUPC CONFERENCE

In the Eye of the Storm: What We've
Seen and What's to Come in the
STEMed Category

20 May 2021

LUPC

Antonio Ramirez

Senior Category Manager,
STEMed and Labs

a.ramirez@lupc.ac.uk

SUPC

Danielle Sweeney

Category Manager,
STEMed

d.k.sweeney@reading.ac.uk

Market Trends

- New laboratories being built in the sector
- Rebuilding and re-using: how can we extend the life of laboratory assets
- Glove pricing will continue to rise into 2022
- Greater availability for plastic recycling schemes (not for items classed as hazardous waste)

Category Insights

- Current sector laboratory equipment needs
- Brexit – Rules of Origin Tariff
- Price increases – CPI
- Using the framework – further competition

Impact of COVID-19

- Gloves
- Pipette Filter Tips
- Covid Tests – where to buy
- PPE – Frameworks available

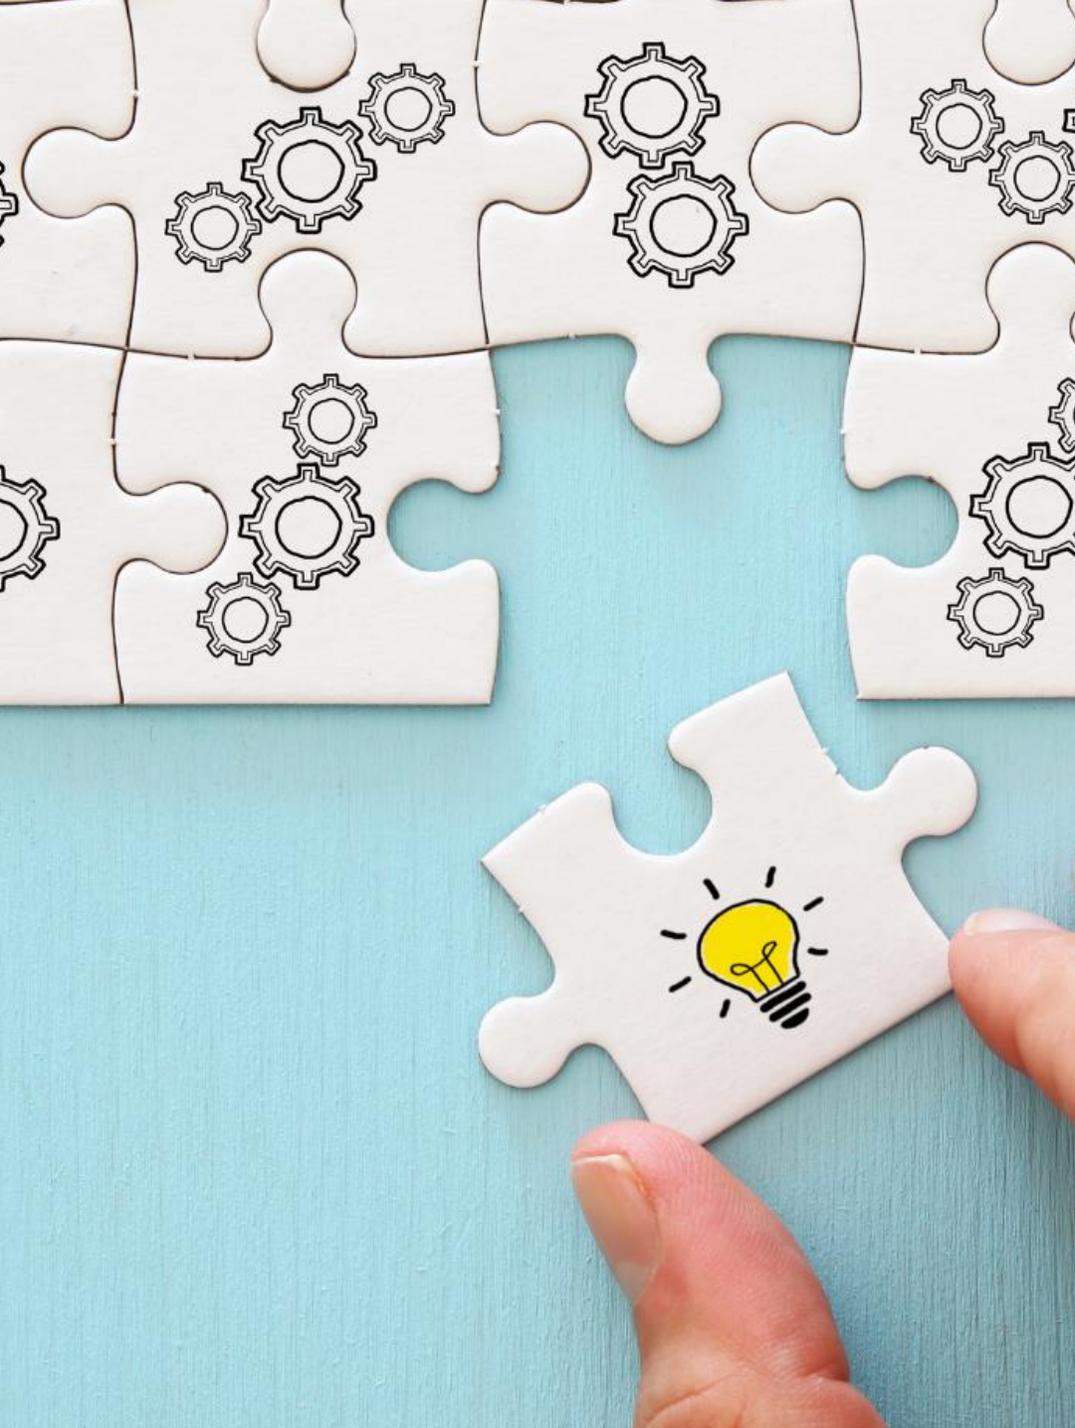

Changes and Implications Arising from the Green Paper

- Government Green Paper: implications for STEMEd
- Green Paper: next steps

Tenders In Progress

- LAB5061 LU, General Lab Equipment: to go live 31st May 2021
- LAB4041 SU IUPC Lab Gases: to go live 1st November 2021
- LAB4042 SU – Antibodies & Sera: to go live 1st July 2021
